The South Carolina Department of Health and Environmental Control (SC DHEC), Bureau of Air Quality, has received Conditional Major Operating Renewal Permit Applications for these facilities, and has drafted operating permits that, if approved, will limit the facilities' potential to emit to below Title V Major Source thresholds, therefore restricting it from Title V Major Source status as defined in SC DHEC Regulation 61-62.70 "Title V Operating Permit Program." The draft permits are subject to review under SC DHEC Regulation 61-62.1; Section II G "Conditional Major Source Permits." These permits will enable the facilities to operate in compliance with State and Federal Air Quality Regulations. The draft permits have not yet been approved and are open to comment from the public and the United States Environmental Protection Agency (EPA). If approved, these draft permits will supersede the existing Conditional Major Operating Permits issued to them on March 27, 2003.

Interested persons may review the materials drafted and maintained by DHEC for these facilities and submit written comments on the draft permits by June 14, 2008, to Joe Eller at the above DHEC address. All comments received by June 14, 2008, will be considered when making a decision to approve, disapprove, or modify the draft permits. Where there is a significant amount of public interest, DHEC may hold a public hearing to receive additional comments. Public hearing requests should be made in writing to Karen Lee at the above DHEC address or by e-mail at: leeka@dhec.sc.gov. If a public hearing is requested and scheduled, notice will be given in this newspaper thirty (30) days in advance. A final review request may be filed after the permit decisions have been made. Information

regarding final review procedures is available from DHEC's legal office at the above address or by calling (803) 898-3350. Information relative to the draft permits will be made available for review through June 14, 2008, at the DHEC Columbia Office listed above.
